## **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 18, 2004 has been entered.

## Reasons for Allowance

- 2. Applicants' amendments and remarks submitted November 18, 2004 have been fully considered, and are found persuasive. Particularly, the Declaration shows the benefit of potassium phosphate. As to the second species, potassium sulfate, since potassium sulfate and potassium phosphate share the same cation and have similar anion (both phosphate and sulfate are considered as bulky and soft), there would have been a reasonably expectation that the two would be function similarly.
- 3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shengjun Wang whose telephone number is (571) 272-0632. The examiner can normally be reached on Monday to Friday from 7:00 am to 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreeni Padmanabhan, can be reached on (571) 272-0629. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications
